About this profile

This public edition describes defence works in general terms: no unit names, formations or exact cantonment locations are given, in line with client confidentiality. Contract agreement numbers are retained. The full tender edition is available to procuring agencies on request.

All figures are contract award values in Pakistani rupees as stated in the award letter or work order, exact to the rupee in the register and rounded elsewhere. Totals cover 87 contracts awarded between December 2002 and March 2026.

ABOUT THE COMPANY

Twenty-four years, one standard.

Mian Engineers & Contractors was formed in Rahim Yar Khan in 2002–2003 as a civil and electrical contractor and has worked for government and defence clients ever since, pausing only through the COVID-19 pandemic.

The firm is licensed by the Pakistan Engineering Council (Category C2, works up to PKR 1,000 million), enlisted with the Military Engineering Services at Category 'A' (No Limit) since 2012, and registered with DHA Islamabad-Rawalpindi at Category C-2. It has been awarded 87 contracts worth PKR 2.62 billion: accommodation blocks, a hospital trauma centre and operation theatres, specialised storage structures, railway bridges, sewerage and tube-well schemes, boundary walls, roads and the administrative complex at DHA Phase-V.

MEC runs its own fully automatic batching plant, truck-mounted concrete pump and site fleet, and employs around 270 engineers, supervisors, operators and skilled trades at peak.

How it began

Mian Wali Ullah qualified in electrical engineering and first ran a transformer manufacturing business. When transformer failures on local WAPDA lines became frequent, WAPDA asked his workshop to build and install replacements. The work was done to specification and billed to the rupee, further contracts followed, and Mian Engineers & Contractors grew from that reputation.

Leadership

Mian Wali Ullah

Chief Executive Officer and founder. An electrical engineer by training, he has led every contract the firm has taken since 2002.

What we hold ourselves to

- Work to the drawing and the specification, measured and recorded as the client's engineer requires.
- Bills that reconcile to the rupee: no inflated quantities, no surprises at final account.
- Delivery dates taken seriously; thirteen storage structures and a nine-contract package delivered on their programmes.
- Client confidentiality respected in everything we publish.
